

The Cromwell Bottom Wildlife Group is dedicated to the development of the Cromwell Bottom Local Nature Reserve for the education and enjoyment of all

Over the years we have

- planted over 1,000 trees and bushes to encourage wildlife
- developed the bird feeding area with great opportunities for photographers
- removed unwanted trees around the lagoons
- installed bird boxes around the reserve
- developed the conservation area on North Loop
- constructed an education area where we can host visits by schoolchildren
- built and staff our wonderful Visitor Centre which is open three days a week

We also maintain the paths around the reserve making it fully accessible to wheelchair users.
